

Be part of a national trial for aphasia!

We are comparing different therapies for people with aphasia. People with aphasia will complete **assessments** and receive **one** therapy:

Treatment 1:
speaking

Treatment 2:
speaking, writing, drawing, gestures

Treatment 3:
usual therapy

Participants in Treatment 3 are offered therapy later in the study.

You can join if you:

- ✓ have **aphasia** after a **stroke**
- ✓ had your stroke more than **6 months** ago
- ✓ can attend **appointments** for assessment and therapy
- ✓ are able to manage going to the toilet

For more information, please contact:

Miranda Rose or
