

APHASIA

Aphasia is a loss of language – not intelligence

Results from injury to the brain caused by stroke, trauma, brain tumour, or disease

1 in 3 people who have a stroke experience aphasia.

Difficulties with:

- speaking
- understanding
- reading &/or
- writing

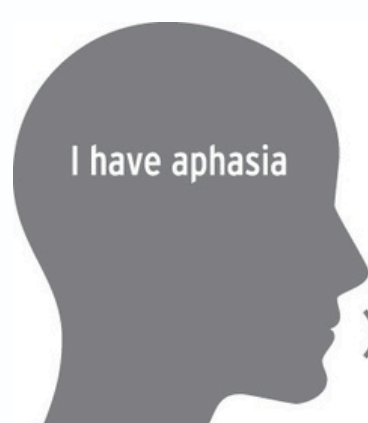

Aphasia New Zealand (AphasiaNZ) is a Charitable Trust. We provide support services, resources, education, and information for anyone in New Zealand living with or affected by aphasia.
